|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

St. Clair County Intergovernmental Grants Department, Community Development Group will hold a Public Hearing for its draft of the **Disaster Recovery Action Plan** for the flooding disaster that occurred in July of 2024. We are seeking citizens' review and comment on the proposed Plan.

The St. Clair County CDBG -DR Action Plan is designed for grantees to inform the public and HUD of the intended use of the funds within their community and how this plan connects to the community's remaining unmet needs and mitigation needs associated with the qualifying disasters.

The overall goal of the Disaster Recovery Action Plan is to identify the use of all CDBG-DR funding, including eligibility criteria for accessing the funds and how the proposed uses will address long-term recovery needs and cover the impacts of the qualifying disaster, restoration of housing, infrastructure, economic revitalization, and mitigation in the impacted areas.

We would also appreciate your input as we determine the needs of low and low-moderate income people and communities, and plan how to best meet these goals with the funds available. Help us to better serve you and your community.
