Earthquake Versión en Español

(PDF File)

Prepare a Home Earthquake Plan

- Choose a safe place in every room--under a sturdy table or desk or against an inside wall where nothing can fall on you.
- Practice DROP, COVER, AND HOLD ON at least twice a year. Drop under a sturdy desk or table, hold on, and protect your eyes by pressing your face against your arm. If there's no table or desk nearby, sit on the floor against an interior wall away from windows, bookcases, or tall furniture that could fall on you. Teach children to DROP, COVER, AND HOLD ON!
- Choose an out-of-town family contact.
- Consult a professional to find out additional ways you can protect your home, such as bolting the house to its foundation and other structural mitigation techniques.
- Take a first aid class from your local Red Cross chapter. Keep your training current.
- Get training in how to use a fire extinguisher from your local fire department.
- Inform babysitters and caregivers of your plan.

Eliminate Hazards, Including--

- Bolting bookcases, china cabinets, and other tall furniture to wall studs.
- Installing strong latches on cupboards.
- Strapping the water heater to wall studs.

Prepare a Disaster Supplies Kit For Home and Car, Including--

- First aid kit and essential medications.
- Canned food and can opener.
- At least three gallons of water per person.
- Protective clothing, rainwear, and bedding or sleeping bags.
- Battery-powered radio, flashlight, and extra batteries.
- Special items for infant, elderly, or disabled family members.
- Written instructions for how to turn off gas, electricity, and water if authorities advise you to do so. (Remember, you'll need a professional to turn natural gas service back on.)
- Keeping essentials, such as a flashlight and sturdy shoes, by your bedside.

Know What to Do When the Shaking Begins

- DROP, COVER, AND HOLD ON! Move only a few steps to a nearby safe place. Stay indoors until the shaking stops and you're sure it's safe to exit. Stay away from windows. In a high-rise building, expect the fire alarms and sprinklers to go off during a quake.
- If you are in bed, hold on and stay there, protecting your head with a pillow.
- If you are outdoors, find a clear spot away from buildings, trees, and power lines. Drop to the ground.
- If you are in a car, slow down and drive to a clear place (as described above). Stay in the

Helping

car until the shaking stops.

► Annual Disaster
Giving Program

Identify What to Do After the Shaking Stops

- Check yourself for injuries. Protect yourself from further danger by putting on long pants, a long-sleeved shirt, sturdy shoes, and work gloves.
- Check others for injuries. Give first aid for serious injuries.
- Look for and extinguish small fires. Eliminate fire hazards. Turn off the gas if you smell gas or think it's leaking. (Remember, only a professional should turn it back on.)
- Listen to the radio for instructions.
- Expect aftershocks. Each time you feel one, DROP, COVER, AND HOLD ON!
- Inspect your home for damage. Get everyone out if your home is unsafe.
- Use the telephone only to report life-threatening emergencies.

Your Local Red Cross Chapter Can Provide Additional Materials in English and Spanish:

- "Are You Ready for a Fire?" (ARC 4456)
- "Your Family Disaster Plan" (ARC 4466)
- "Your Family Disaster Supplies Kit" (ARC 4463)

Materials for Children:

- "Be Ready 1-2-3" involves puppets who give important safety information to children ages 3-8 about residential fire safety, winter storms, and earthquakes.
- "Disaster Preparedness Coloring Book" (PDF File) (ARC 2200, English, or ARC 2200S, Spanish (PDF File)) for children ages 3-10.
- "Adventures of the Disaster Dudes" (ARC 5024) video and Presenter's Guide for use by an adult with children in grades 4-6.
- "After the Quake" Coloring Book (ARC 2201, English, or ARC 2201S, Spanish)

And remember . . . when an earthquake, tornado, flood, fire, or other emergency happens in your community, you can count on your local American Red Cross chapter to be there to help you and your family. Your Red Cross is not a government agency and depends on contributions of your time, money, and blood. For more information, please contact your local American Red Cross chapter or emergency management office.

If you would like permission to use the information about earthquakes on this page in a newsletter or other publication, or on your Website, please e-mail us at:

Family Earthquake Plan

Stocking up now with emergency supplies can add to your safety and comfort during and after an earthquake. Store enough supplies to last at least 72 hours.

Survival

- Water (1 gallon per person per day)
- First aid kit (freshly stocked)
- Food (canned or packaged that will not spoil, including items for special diets and comfort food such as candy, nuts or raisins)
- Can opener (non-electric)
- Blankets or sleeping bags
- Portable radio, flashlight and extra batteries
- Essential medications and glasses
- Fire extinguisher A-B-C type
- Food and water for pets
- Money (small bills)

Sanitation Supplies

- Large plastic trash bags for trash and waste
- Large trash cans
- Bar soap and liquid detergent
- Shampoo
- Deodorant
- Toothpaste and toothbrushes
- Feminine hygiene supplies
- Infant supplies
- Toilet paper
- Household bleach
- Newspaper to wrap garbage and waste

Safety and Comfort

- Sturdy shoes
- Heavy gloves for clearing debris
- Change of clothing
- Tent

Cooking

- Barbecue, camp stove or chafing dish (include matches)
- Fuel for cooking (charcoal, camp stove fuel, etc.)
- Plastic knives, forks and spoons
- Paper plates and cups
