Division of Water Pollution Control ANNUAL FACILITY INSPECTION REPORT

for NPDES Permit for Storm Water Discharges from Separate Storm Sewer Systems (MS4)

This fillable form may be completed online, a copy saved locally, printed and signed before it is submitted to the Compliance Assurance Section at the above address. Complete each section of this report.

Report Period: From March, 2022 To March, 2023

Permit No. ILR40 0318

MS4 OPERATOR INFORMATION: (As it appears on the current permit)

Name: CITY OF COLUMBIA Mailing Address 1: 208 SOUTH RAPP AVENUE
Mailing Address 2: County: St. Clair
City: COLUMBIA State: IL Zip: 62236 Telephone: 618-281-7144 x 107
Contact Person: CHRIS SMITH Email Address: csmith@columbiaillinois.com
(Person responsible for Annual Report)

Name(s) of governmental entity(ies) in which MS4 is located: (As it appears on the current permit)

ILLINOIS DEPARTMENT OF TRANSPORTATION ST. CLAIR COUNTY
SUGARLOAF TOWNSHIP

THE FOLLOWING ITEMS MUST BE ADDRESSED.

A. Changes to best management practices (check appropriate BMP change(s) and attach information regarding change(s) to BMP and measurable goals.)

- | | |
|---|--|
| 1. Public Education and Outreach ☐ | 4. Construction Site Runoff Control ☐ |
| 2. Public Participation/Involvement ☐ | 5. Post-Construction Runoff Control ☐ |
| 3. Illicit Discharge Detection & Elimination ☐ | 6. Pollution Prevention/Good Housekeeping ☐ |

B. Attach the status of compliance with permit conditions, an assessment of the appropriateness of your identified best management practices and progress towards achieving the statutory goal of reducing the discharge of pollutants to the MEP, and your identified measurable goals for each of the minimum control measures.

C. Attach results of information collected and analyzed, including monitoring data, if any during the reporting period.

D. Attach a summary of the storm water activities you plan to undertake during the next reporting cycle (including an implementation schedule.)

E. Attach notice that you are relying on another government entity to satisfy some of your permit obligations (if applicable).

F. Attach a list of construction projects that your entity has paid for during the reporting period.

Any person who knowingly makes a false, fictitious, or fraudulent material statement, orally or in writing, to the Illinois EPA commits a Class 4 felony. A second or subsequent offense after conviction is a Class 3 felony. (415 ILCS 5/44(h))

Persons Responsible: Yes ☐ No ☒

Name: _____

Title: _____

Telephone Number: _____

Area of Responsibility: _____

Introduction

In 2003, St. Clair County (County), Illinois and its communities created a Co-Permittee Group to join forces in complying with the National Pollutant Discharge Elimination System (NPDES) for Municipal Separate Storm Sewer Systems (MS4) Phase II requirements. As stated in the original 2003 Notice of Intent (NOI), the County and the Co-Permittee communities were to pool resources and work together to comply with the commitments made within the NOI for the benefit of all within the County.

The Co-Permittee Group was active during this reporting period. Significant progress was made sharing Best Management Practices (BMPs) for document retention, operation procedures, and maintenance activities.

Best Management Practice (BMP) Summary of 2022-2023 Activities

In 2003, each member of the Co-Permittee Group submitted a NOI in compliance with the first 5-year cycle. In 2008, a NOI was submitted in compliance with the next 5-year cycle, as written in the first MS4 permit. The 2009 NOI was submitted in compliance with additional requirements in the second MS4 permit. In 2013, a new NOI was submitted for the next 5-year cycle and was in place starting in March 2014. As stated in the 2003, 2008, 2009, and 2013 NOIs, each Co-Permittee Member identified certain activities to comply with the Phase II requirements. Below is an abbreviated summary of the BMPs that were written in the NOI for each of the minimum control measures.

March 2022-February 2023:

- 1) **A.1-** Stormwater brochures for businesses, homeowners, children, and green infrastructures were to be promoted and displayed by each community in a public place.
- 2) **A.4-** St. Clair County sponsored a booth at the County Fair and/or Earth Day and distributed the storm water and green infrastructure brochures.
- 3) **A.5-** St. Clair County posted newsletters on the County Health Department website during school months. Co-Permittee Members distributed educational materials to schools in their communities. The amount of material distributed was to be tracked by the communities.
- 4) **B.3-** The Co-Permittee Group met four (4) times to review upcoming permit requirements, notice of intent, review stormwater management program, operations training, and to develop and submit the Annual Report.
- 5) **B.5-** Co-Permittee Members solicited and encouraged public assistance in monitoring the community's stormwater system. Public inquiries and complaints were responded to and recorded.
- 6) **B.6-** St. Clair County continued to promote programs related to stormwater activities and recycling programs. The community tracked its participation.

- 7) **B.7-** Co-Permittee Members will provide a public meeting annually for public input.
- 8) **C.1-** Co-Permittee Members updated any new or revised storm sewers and performed stream observations at bridge inspections.
- 9) **C.5-** A survey of previously installed stencils was to be performed as well as replacing or placing any that needed inlet stencils.
- 10) **C.6-** Communication brochures were distributed to the community. Co-Permittee Members discussed any known illicit discharge ordinance compliance issues.
- 11) **C.9-** Co-Permittee Members developed brochures addressing specific stormwater ordinance prohibited activities and distributed with educational brochures.
- 12) **D.1-** Require SWPPP on site plans disturbing more than one acre.
- 13) **D.2-** The Co-Permittee will hold a BMP Training class.
- 14) **D.5-** St. Clair County Continued to Maintain a stormwater hotline number to address public concerns related to stormwater issues. County tracked and reported the number of calls.
- 15) **E.2-** Enforce Stormwater Ordinance and track changes made to the ordinance.
- 16) **E.4-** Require and review SWPPPs on site plans disturbing more than 1-acre of land.
- 17) **F.1-** the Co-Permittee will hold an Operations Training class focused on a review of the history of drainage systems, the Clean Water Act and NPDES permits, and the impacts of stormwater.
- 18) **F.6-** Communities reviewed operating procedures and BMPs and modified, if necessary.

The following pages highlight changes made to the BMPs from the NOI, BMP status, and activities planned for the next reporting year. Additional information is also provided from the County and each Community.

City of : City of Columbia

Name: Doug Brimm

Title: City Administrator

Telephone Number: 618-281-7144

IEPA Annual Report for Stormwater Discharges from MS4 Communities- Period: March 2022 through February 2023

A. Changes to Best Management- Were there any changes to the BMPs?		B. The status of compliance with the permit, the appropriateness of the BMP and progress towards achieving reduction of discharged pollutants to the MEP, and identified measurable goals for each of the minimum control measures.		C. Provide results of information collected and analyzed, including monitoring data. Information attached?		D. Summarize the stormwater activities you plan to undertake with an implementation schedule.	
Comment	YES	NO	If attached information, describe.	YES	NO	Activity	Schedule
BMP No. A.1 - Distributed Paper Materials- Informational Brochures							
Milestone For Reporting Year: Promote the availability of brochures to the residents.							
			The City has brochures available to residents at the Public Library and City Hall. Educational topics include paint and related decor, lawn and garden care, use of soaps, solvents, or detergents used outdoors, storage and disposal of fuels, oils, or similar materials. The St. Clair County storm water hotline number is included.			The City and County will continue to make educational brochures available to the public.	Ongoing through 2021-2026 permit year.
		✓			✓		
BMP No. A.4- Community Event- Sponsor Annual Booth at St. Clair County Earth Day Festival							
Milestone For Reporting Year: St. Clair County sponsored a booth at the Earth Day Festival.							
			There was no "Physical Attendance" Earth Day this year but the St. Clair County Health Department sent out information to the schools.			St. Clair County is responsible for the booth and tracking the number of brochures handed out.	Ongoing through 2021-2026 permit year.
		✓			✓		
BMP No. A.5- Classroom Education Material							
Milestone For Reporting Year: County posts a newsletter on County Health Department website for students during the school months.							
			St. Clair County posted educational newsletters on the Health Department's website.			The communities will inform local schools that the newsletters are available on the Health Department's website.	Ongoing through 2021-2026 permit year.
		✓			✓		

IEPA Annual Report for Stormwater Discharges from MS4 Communities- Period: March 2022 through February 2023

A. Changes to Best Management- Were there any changes to the BMPs?		B. The status of compliance with the permit, the appropriateness of the BMP and progress towards achieving reduction of discharged pollutants to the MEP, and identified measurable goals for each of the minimum control measures.		C. Provide results of information collected and analyzed, including monitoring data. Information attached?		D. Summarize the stormwater activities you plan to undertake with an implementation schedule.	
Comment	YES	NO	YES	NO	Activity	Schedule	
BMP No. B.3- Stakeholder's Meeting- Coordinate Meetings and Annual Reports, Sponsor Various Programs							
Milestone For Reporting Year: Co-Permittee Group met four (4) times to complete training and to develop and submit the Annual Report.							
			See page 10 and Exhibits B.3-A to B.3-E for more information		The County will continue to meet with the Co-Permittee Group to share BMPs and training opportunities. The Co-Permittee Group has planned four compliance/training activities the next Program year.	Ongoing through 2021-2026 permit year.	
	☒			☒			
BMP No. B.5- Volunteer Monitoring- Solicit and Encourage Public Assistance in Monitoring the Community's Stormwater System & Stormwater Hotline							
Milestone For Reporting Year: Community will work to involve more public assistance in reporting stormwater issues.							
					The community will continue to respond to and record all public complaints of illicit discharge and/or dumping and stormwater issues.	Ongoing through 2021-2026 permit year.	
	☒			☒			
BMP No. B.6- Program Involvement- Participate in programs targeted at public awareness, including: Inlet Stenciling and Recycling							
Milestone for Reporting Year: St. Clair County continued to promote programs related to stormwater activities. Communities tracked participation.							
			See page 10 and Exhibit B.6-A for more information		The City and County will continue to promote programs related to stormwater activities. Multiple media outlets will be used to communicate with municipalities.	Ongoing through 2021-2026 permit year.	
	☒			☒			

IEPA Annual Report for Stormwater Discharges from MS4 Communities- Period: March 2022 through February 2023

A. Changes to Best Management- Were there any changes to the BMPs?		B. The status of compliance with the permit, the appropriateness of the BMP and progress towards achieving reduction of discharged pollutants to the MEP, and identified measurable goals for each of the minimum control measures.		C. Provide results of information collected and analyzed, including monitoring data. Information attached?		D. Summarize the stormwater activities you plan to undertake with an implementation schedule.	
Comment	YES	NO	If attached information, describe.	YES	NO	Activity	Schedule
BMP No. B.7- Other Public Involvement - The community will provide a public meeting annually for public input regarding the MS4 Program							
Milestone for Reporting Year: The communities will provide a public meeting annually for the MS4 program.							
	☒	☐	The City held a public meeting to invite public input regarding the adequacy of the MS4 Program on February 21, 2023. No comments were received.	☒	☐	Community will continue to hold a public meeting to solicit public input regarding the adequacy of the MS4 program.	Ongoing through 2021-2026 permit year.
BMP No. C.1- Storm Sewer Map Preparation							
Milestone for Reporting Year: County currently has 100% of outfall locations and names of receiving waters mapped for the Co-Permittee community.							
	☒	☐	Co-Permittee communities reviewed their outfall maps for completeness and updated them if necessary. The City currently has 100% of outfall locations, stormwater systems, and receiving water mapped. Storm Sewer Map was last updated: August 1, 2022	☒	☐	Communities will begin/continue to update their storm system maps to include modifications to the system.	Ongoing through 2021-2026 permit year.
BMPs No. C.5- Inlet Stenciling							
Milestone for Reporting Year: Survey condition of inlet stencils.							
	☒	☐	The City has 100% of inlets marked totaling 1,860. The Street Department will continue to assess the condition of the markers and replace ones that need to be replaced. The City has extra stencils available if needed.	☒	☐	Communities will survey samples of stencils previously installed, replace ones that need to be replaced, and assure all new inlets are installed with stencils.	Ongoing through 2021-2026 permit year.
BMP No. C.6- Program Evaluation and Assessment							
Milestone for Reporting Year: Perform illicit discharge detection and elimination in the Community's stormwater system.							
	☒	☐	Communities will perform stream observations during their annual bridge inspections or quarterly stormwater sampling and take appropriate action if any illicit discharge is found. The City performed illicit discharge stream monitoring at Wilson Creek, Carr Creek, Palmer Creek at Columbia Quarry and Ramsey Rd. 	☒	☐	Communities will continue to perform stream observations and address illicit discharge per the community ordinance.	Ongoing through 2021-2026 permit year.

COMMUNITY NAME:

PERMIT #:

IEPA Annual Report for Stormwater Discharges from MS4 Communities- Period: March 2022 through February 2023

A. Changes to Best Management- Were there any changes to the BMPs?		B. The status of compliance with the permit, the appropriateness of the BMP and progress towards achieving reduction of discharged pollutants to the MEP, and identified measurable goals for each of the minimum control measures.		C. Provide results of information collected and analyzed, including monitoring data. Information attached?		D. Summarize the stormwater activities you plan to undertake with an implementation schedule.	
Comment	YES	NO	If attached information, describe.	YES	NO	Activity	Schedule
BMP No. C.9- Public Notification							
Milestone for Reporting Year: Community will update ordinance brochure.							
			Brochures will be updated (if needed) to address specific storm water ordinance prohibited activities and distributed with brochures addressed in BMP No. A.1.			Ordinance brochures will be updated and distributed as needed.	Ongoing through 2021-2026 permit year.
	✓				✓		
BMP No. D.1- Regulatory Control Program							
Milestone for Reporting Year: Require SWPPP on all site plans disturbing more than one acre of land inside the Community.							
			The City requires SWPPP on sites disturbing over 1-acre and enforces ordinance provisions.			The community will continue to require SWPPP on sites disturbing over 1-acre and verify the proper use of sediment and erosion control techniques.	Ongoing through 2021-2026 permit year.
	✓				✓		
BMPs No. D.2- Erosion and Sediment Control BMPs							
Milestone for Reporting Year: Community will participate in BMP training during Annual Operations Training.							
			BMP training was provided during the Annual Operations Training on September 6, 2022.			Community will continue to participate in BMP Training	Ongoing through 2021-2026 permit year.
	✓			✓			
BMP No. D.5- Stormwater Hotline							
Milestone for Reporting Year: County continued to maintain a stormwater hotline number to address public concerns related to stormwater issues.							
			St. Clair County maintained the hotline number during the reporting period. Communities respond to complaints from residents regarding stormwater related issues.			County and Communities will respond to calls and emails related to stormwater issues.	Ongoing through 2021-2026 permit year.
	✓				✓		

IEPA Annual Report for Stormwater Discharges from MS4 Communities- Period: March 2022 through February 2023

A. Changes to Best Management- Were there any changes to the BMPs?		B. The status of compliance with the permit, the appropriateness of the BMP and progress towards achieving reduction of discharged pollutants to the MEP, and identified measurable goals for each of the minimum control measures.		C. Provide results of information collected and analyzed, including monitoring data. Information attached?		D. Summarize the stormwater activities you plan to undertake with an implementation schedule.	
Comment	YES	NO		If attached information, describe.	YES	NO	Schedule
BMP No. E.2- Regulatory Control Program							
Milestone for Reporting Year: Enforce County's Stormwater Ordinance.							
	☒			Communities will continue to enforce their stormwater ordinance and track changes made to the ordinance. The City had no changes this year.	☒		Communities will continue to enforce their stormwater ordinance. Ongoing through 2021-2026 permit year.
BMP No. E.4- Pre-Construction Review of BMP Designs							
Milestone for Reporting Year: Require a Stormwater Prevention Plan (SWPPP) on all site plans disturbing more than one acre of land and review post construction.							
	☒			The City requires and reviews SWPPs on site plans disturbing more than 1-acre of land. Post Construction Management Training was covered during the December 6, 2022 Quarterly Meeting.	☒		Communities will review the post construction BMPs on all sites that disturb more than 1-acre of land. Ongoing through 2021-2026 permit year.
BMPs No. F.1- Employee Training							
Milestone for Reporting Year: Community will participate in an annual Operations Training for employees whose job impacts stormwater runoff.							
	☒			Operations Training was covered during the September 6, 2022 Quarterly Meeting.	☒		The Co-Permittee Group will continue to review Operations Training at one meeting per program year. Ongoing through 2021-2026 permit year.
BMP No. F.6- Other Municipal Operations Controls - Standard Operating Procedures							
Milestone for Reporting Year: Communities reviewed operating procedures and BMPs and modified if necessary.							
	☒			Communities will continue to enforce their stormwater ordinance and track changes made to the ordinance. The City last reviewed and updated on January 16, 2023.	☒		Communities will continue to enforce their stormwater ordinance. Ongoing through 2021-2026 permit year.

IEPA Annual Report for Stormwater Discharges from MS4 Communities- Period: March 2022 through March 2023

ADDITIONAL INFORMATION

BMP A.5	Classroom Educational Materials St. Clair County posted educational newsletters on the Health Department's website. See attached Exhibit A.5-A for more information.
BMP B.3	Stakeholder's Meeting - Coordinate Meetings and Annual Reports, Sponsor Various Programs The St. Clair County MS4 Co-Permittee Group held four quarterly training meetings during the 2022-2023 permit year. Topics covered included: Annual Reporting, Data Collections, ILR40 Updates, Sediment & Erosion Control Training, Operations/Good Housekeeping Training, and Post-Construction Management Training. Members were issued Certificates of Attendance and Training Completion. See attached Exhibit B.3-A to Exhibit B.3-E for additional details.
BMP B.6	Program Involvement-Participate in programs targeted at public awareness, including Inlet Stenciling and Recycling City of Columbia and St. Clair County continued to promote programs and public awareness related to stormwater activities and recycling. See attached Exhibit B.6-A for additional details.
BMP B.7	Other Public Involvement - The community will provide a public meeting annually for public input regarding the MS4 Program City of Columbia held a Public Meeting February 21, 2023 and St. Clair County held a Public Meeting to invite public input regarding the adequacy of the MS4 Program on January 30, 2023. No comments were received. The County also distributed educational information. See attached Exhibit B.7-A for additional details.
BMP C.5	Inlet Stenciling - Illicit Source Removal Procedures St. Clair County Highway Department sponsors an Adopt-a-Highway Program throughout the County. By sponsoring this program, St. Clair County is eliminating a significant source of stormwater pollution by keeping trash out of streams and keeping road ditches clear of debris from storm events
BMP D.2	Erosion and Sediment Control BMPs St. Clair County will provide annual BMP training at (1) Quarterly Meeting. See attached Exhibit D.2-A for more details.
BMP E.4	Pre-Construction Review of BMP Designs St. Clair County requires and reviews SWPPs on site plans disturbing more than 1-acre of land. Post Construction Management Training was covered during the December 6, 2022 Quarterly Meeting. See Exhibit E.4-A for more details.

Additional Community Activities

(Make additional copies of form, if necessary)

List any additional community-sponsored activities performed between March 1, 2022 and February 28, 2023 not listed in the *Notice of Intent* (NOI) submittal, but which address one of the six minimum control measures:

The City has a municipality Website and posts the stormwater hotline number, annual reports, educational brochures, the stormwater pollution prevention plan, and the NOI.

The City swept 717.1 miles of roadway and removed 1,003 cubic yards of debris.

The City sponsored an Electronics Recycling Day on August 6, 2022 collecting 8,000 pounds.

The City participated in Live Christmas Tree Recycling in cooperation with Reliable Sanitation on January 14, 2023.

The City held large item pickup days on May 24th and September 2nd, and November 8th, 2022.

Citywide leaf and limb pickups were performed. Leaf pickups were conducted for 9 weeks (October thru December) collecting 2,149 cubic yards, and limb pickups were conducted for one week in April and one week in October.

Five catch basins were cleaned since March, 2022.

Once 6-cubic-yard dumpster was used by the City for trash retrieved from road ditches and waterways. The dumpster was emptied weekly.

Ditch maintenance took place along .94 miles of Centerville Road, Bluffside Road, and Palmer Road. Ditch checks, straw mats and riprap were the chosen BMPs.

Quarterly Visual Monitoring was performed at the following locations:

Wilson Creek - Centerville Road @ City Limits
Palmer Creek - Columbia Quarry @ Pump Discharge Deck
Carr Creek - Valmeyer Road behind Carr Creek Lift Station
Palmer Creek - Ramsey Road @ DD Road Bridge

First Quarter Sample Date: 3/31/22

Second Quarter Sample Date: 5/06/22

Third Quarter Sample Date: 8/04/2022

Fourth Quarter Sample Date: 12/15/2022

See Exhibit: Additional Community Activities-A for reports.

St. Clair County Groups and Organizations and City of Columbia - Illinois APWA meeting participation every other month. See Exhibit: Additional Activities-B for details. 

Circle which minimum control measure is addressed:

C. Reliance on Government Entities for Permit Obligations

Co-Permittee cooperation with the County

CI. List of Construction Projects during 2022-2023 Reporting Year

Permit #	Project	Status
ILR10ZBID	Quarry Road - Reconstruction	Start Date: 5/23/22 End Date: 10/31/22
ILR10ZCDH	Valmeyer Road - Reconstruction	Start Date: 3/01/23 End Date: 9/30/23

Education Materials for Schools

SCHOOLS

CLIMATE LITERACY

- Use an [Advocacy Packet](#) to start advocating for sustainable initiatives in your community.
- [Sign the letter](#) to demand climate education from our global leaders.
- [Explore our toolkits](#) to learn about environmental issues and take action!

FOOD & ENVIRONMENT

- Host a book club on [plant-based eating and climate change](#).
- Implement composting program and meatless Mondays in school cafeteria.
- Start a school garden to grow fresh veggies for a local food kitchen.
- Offer plant-based options at school events like sporting events.

GLOBAL EARTH CHALLENGE

- Download the [Global Earth Challenge app](#) and collect data about air quality, plastic pollution, insects, and food in your community.
- Use the [air quality](#), [plastic pollution](#) and [insect](#) lesson plans for fun activities to do from home!

PLASTIC POLLUTION

- Host a plastic repurposing workshop.
- [Host a cleanup event](#).
- Invite local [speakers to a Teach-In](#).
- Collect difficult to recycle items (markers, glue containers, etc) to send off to be disposed of responsibly.
- Replace single use plastic items like cutlery and waterbottles.

ARTISTS FOR THE EARTH

- Repurpose unused lockers as space for eco-art installations.
- Paint a mural in the hallway, cafeteria or outside wall.
- Host a recycled material craft event.
- Host an Earth Day poster, essay or poetry contest.

BIODIVERSITY

- Plant a [pollinator garden](#) or designate no-mow zones on school grounds.
- Invite a local beekeeper to come [speak at a Teach-In](#).
- Host birdhouse or insect hotel building for your school.
- Watch species related films or documentaries and host a discussion.
- Host a fundraiser to plant trees with the [Canopy Project](#).

WHEN IT RAINS, IT DRAINS IT ALL HAS TO GO SOMEWHERE

Water from inside our homes goes to a wastewater facility for purification. But water from roofs, streets, and outdoor spigots goes untreated directly into storm drains - straight to our waterways - picking up all kinds of contaminants along the way!

DID YOU KNOW

Excess nutrients, specifically nitrogen and phosphorus, pollute stormwater run-off from urban areas, contributing to **the third greatest cause of lake deterioration** in the US.

DID YOU KNOW

The amount of phosphorus in grass clippings from mowing your lawn just once can produce up to **100 pounds** of unwanted algae if it ends up in our lakes and ponds.

DID YOU KNOW

Leaf "litter" and landscape trash account for **56%** of phosphorus in urban stormwater, not to mention clogging storm drains, causing potential flooding and increasing debris in our waterways.

DID YOU KNOW

Just one pound of fertilizer over-application on the average lawn can equate to **34.2 pounds** of excess algae growth in streams and lakes.

DID YOU KNOW

When you wash your car in the driveway, you're washing about **120 gallons** of grime-filled water downstream. The soap, together with the dirt, grease, and grime flows untreated into nearby storm drains that run into lakes and streams.

DID YOU KNOW

If dog owners don't clean up after their pooches, **390 million pounds** of poop can wash into our waterways every year in just Colorado! Dog waste contains 10% phosphates and 2% nitrates, contributing to algae growth.

WHY IT MATTERS

Too many nutrients in streams and lakes cause rapid growth of algae.

Algae looks bad, smells bad, degrades water quality and can be harmful to your health.

As algae decays, it uses up oxygen in the water, leading to a decline in our drinking water quality - making it more expensive to treat.

WHAT YOU CAN DO

Dispose Properly

- Compost or bag your leaves and lawn clippings
- Don't blow leaves or lawn clippings into the street
- Sweep up any spills or overspray of fertilizers on sidewalks or streets

Fertilize Efficiently

- Always follow the manufacturer's application recommendations. More isn't better!
- Fertilizing in early fall promotes healthy root systems - leading to stronger, more resilient lawns and plants

Be Car Smart

- Use a commercial car wash where water is recycled and sent to treatment facilities
- Wash your car on the lawn or gravel
- Dump your soapy bucket in the sink

Pick It Up & Pitch It

- Clean up dog waste and dispose of it properly
- Pet waste bags are available in most city parks

For Businesses

- Do your part at work to prevent stormwater pollution
- Perform necessary maintenance to ensure stormwater ponds and drainage control structures stay clear of litter and excessive sediment buildup
- Properly dispose of chemicals and grease

For Contractors

- Special stormwater permits are required for most construction sites
- See CityofMontrose.org/Stormwater for additional details
- Report excessive dust or mud trackout from construction sites

Illegal Dumping

- Do not dump chemicals or other waste materials into storm drains — it's illegal
- If you see it, report it

Reporting

ST. CLAIR **COUNTY'S** **STORMWATER** **GUIDE FOR KIDS**

TAKE A DIP!

STORMWATER POLLUTANTS FIND THEIR WAY INTO WHERE WE FISH, WHAT WE DRINK AND WHERE WE SWIM.

Everything that goes into our storm drains—grass clippings, soap, pesticides, pet waste, whatever—makes its way straight to our streams. Stormwater pollution is our biggest source of water pollution. It all adds up. It all comes back. And you're the solution, now that you know where it goes.

What's wrong with this picture?

The people are taking care of their home and car, but they are doing many things that can damage the environment, especially our water.

Answers:

1. Car is leaking oil & antifreeze into the street
2. Sprinkler is watering the sidewalk.
3. Man is littering.
4. Raking leaves into plastic bags—use compost.
5. Pouring oil down sewer

Go to <http://www.epa.gov/OWOW/NPS/kids/whatwring.htm>

Click on the spots where you think someone is doing something wrong for an explanation and how we can do to protect our environment.

Stormwater Tips

- ⇨ Sweep driveways instead of hosing
- ⇨ Place trash in closed containers and pick up litter from others
- ⇨ Don't pour anything into the street or storm drain. It ends up in your rivers and streams
- ⇨ Pick up after your pet when you walk them

"Please don't **soil** our waters!"

It's no fish story: soil erosion is our #1 water pollutant.

What's wrong with soil? It keeps waterways from filtering pollutants and carries a lot of oil and other chemicals that contaminate the water and lead to swimming green lakes.

EXHIBIT B.3-A

St. Clair County
2022 Quarterly Meeting Notices

St. Clair County MS4 Group

Quarterly Meeting Notice

March 8, 2022
9:00 – 11:00 a.m.
Klucker Hall – Top Floor

Located in: Shiloh Community Park
14 Park Drive
Shiloh, IL 62269

Our presentation will be on Annual Reports, Data Collection & ILr40 Updates.

We look forward to seeing you!

Tony Schenk, P.E.

Jon Schaller, P.E.

Tammy Mezo, Administrative Assistant

St. Clair County MS4 Group

St. Clair County
2022 Quarterly Meeting Agendas

**St. Clair County MS4 Co-Permittee Group
Quarterly Meeting Agenda
March 8, 2022**

Introductions

- ☐ Gonzalez Companies, LLC
 - Tony Schenk (tschenk@gocos.net) / (618) 222-2221 ext. 101
 - Jon Schaller (jschaller@gocos.net) / (618) 222-2221 ext. 119
 - Tammy Mezo (tmezo@gocos.net) / (618) 222-2221 ext. 118
- ☐ Co-Permittee Group Representatives

Open Discussion

- ☐ Previous MS4 Experience, Processes and Suggestions for Improvement
- ☐ Outlook on Timeline for MS4 Group
 - Processing Invoices and Contract Documents
 - Data Collection Forms
 - Annual Reports
 - Submission of NOI's (if not done so already)
 - Quarterly Meetings – First Tuesday of Each Quarter
 - March 8th - Annual Reports, Data Collection and ILR40 Updates
 - June 7th – Storm Water Sampling and Additional Permit Requirements
 - September 6th – Operations and Maintenance Training/BMP's and Good Housekeeping
 - December 6th – Sediment and Erosion Control BMP's

Data Collection for Annual Report

- ☐ Review of Data Collection Forms
 - IV.B.2 – Public Involvement/Participation - Annual Public Meeting
 - IV.B.3 - IDDE – Dry Weather Sampling
 - V. Monitoring, Record Keeping and Reporting – Quarterly Outfall Monitoring and Inspection

ILR 40 Permit Updates

- ☐ Public Education and Outreach
- ☐ Public Involvement and Par
- ☐ Illicit Discharge Detection and Elimination (IDDE)
- ☐ Construction Site Runoff Control
- ☐ Post-Construction Management
- ☐ Good Housekeeping

Next Meeting: June 7, 2022 at 9:00 a.m.

**St. Clair County MS4 Co-Permittee Group
Quarterly Meeting Agenda
June 7, 2022**

Introductions

- ☐ Gonzalez Companies, LLC
 - Tony Schenk (tschenk@gocos.net) / (618) 222-2221 ext. 101
 - Jon Schaller (jschaller@gocos.net) / (618) 222-2221 ext. 119
 - Tammy Mezo (tmezo@gocos.net) / (618) 222-2221 ext. 118
- ☐ Co-Permittee Group Representatives – New Members

Open Discussion

- ☐ Updated Contact Information for Members
- ☐ Submission of NOI's for Change in Operator
- ☐ Wayne Caughman – IEPA

Past Events

- ☐ March 8th Quarterly Meeting
 - Annual Report, Data Collection, ILR40 Updates & Storm Water Sampling
- ☐ Data Collection Forms and Annual Reports – Lessons Learned?

Permit Requirements

- ☐ Public Education and Outreach - Brochures and Events
- ☐ Public Involvement and Participation – Public Meeting
- ☐ Illicit Discharge Detection and Elimination (IDDE) – Stormwater Sampling
- ☐ Construction Site Runoff Control – Annual Training (June 7 - Today!)
- ☐ Post-Construction Management – Annual Training (December 6)
- ☐ Good Housekeeping – Annual Training (September 6)

Sediment and Erosion Control BMP's

- ☐ Presentation and Resources

Upcoming – Next Meeting September 6th – 9:00 a.m.

- ☐ September 6th – Operations and Maintenance Training/BMP's and Good Housekeeping
- ☐ December 6th – Post Construction Management

**St. Clair County MS4 Co-Permittee Group
Quarterly Meeting Agenda
September 6, 2022**

Introductions

- ☐ Gonzalez Companies, LLC
 - Tony Schenk (tschenk@gocos.net) / (618) 222-2221 ext. 101
 - Jon Schaller (jschaller@gocos.net) / (618) 222-2221 ext. 119
 - Tammy Mezo (tmezo@gocos.net) / (618) 222-2221 ext. 118
- ☐ Co-Permittee Group Representatives – First Meeting

Open Discussion

- ☐ Updated Contact Information for Members
- ☐ Submission of NOI's for Change in Operator
- ☐ Outstanding Annual Reports
- ☐ Upcoming IEPA Audits – Swansea, Lebanon, ??

Past Events

- ☐ June 7th Quarterly Meeting
 - Permit Requirement Reminders
 - Sediment and Erosion Control
 - ☐ Construction Site Runoff
 - ☐ Notice of Intent
 - ☐ Flood Management, Water Quality & Non-Point Source Pollution
- ☐ USEPA Inspections

Permit Requirements Reminders

- ☐ Public Education and Outreach - Brochures and Events
- ☐ Public Involvement and Participation – Public Meeting
- ☐ Illicit Discharge Detection and Elimination (IDDE) – Stormwater Sampling
- ☐ Construction Site Runoff Control – Annual Training (June 7)
- ☐ Post-Construction Management – Annual Training (December 6)
- ☐ Good Housekeeping – Annual Training (September 6 – Today!)

Operations and Maintenance / Good Housekeeping Presentation

- ☐ Presentation and Resources

Upcoming – Next Meeting Tuesday December 6th – 9:00 a.m.

- ☐ December 6th – Post Construction Management
- ☐ March 2023 – Program Year in Review / Annual Reports

St. Clair County MS4 Co-Permittee Group Quarterly Meeting Agenda December 6, 2022

E-Waste Drive Hosted by: City of Columbia

Attn: Mary Hawkins

Date: August 6, 2022

Time: 8am – 12pm or until truck is full*

Location of Drive: McDannold Drive in Columbia

Hosted event base fee: \$ 2100.00

**All E-Waste drives will end when CJD's truck is completely full.*

If additional truck is not booked, CJD reserves the right to stop taking material prior to the scheduled end time of the drive.

Included in base fee:

- CJD will provide Gaylord boxes and pallets to package material
- CJD staff will unload vehicles, package, and load material into CJD trucks
- CJD will be responsible for shipping of collected material
- CJD will provide the day of the event:

One 48' Semi-Trailer or equivalent

Note: Semi may be dropped in advance or the day of the scheduled drive.

Truck will be picked up no later than the week following the drive.

RESIDENTS/BUSINESS to provide:

- Location for the event
 - Area needs to be an asphalt and/or concrete surface to accommodate pallet jacks
- Advertising for the event
- Restroom facilities for CJD staff
- Workers and/or volunteers for traffic control and unloading of vehicles
- Traffic cones if needed

Will you be providing volunteers for the event? Yes ☐ # provided No ☐

CJD can supply an additional truck if you are anticipating a large event. An additional event fee will apply if used. There is no cost to you if truck is not used. Please check truck size (if requested) and associated fee:

- ☐ 24' box truck requested – Additional \$450.00 fee
- ☐ 53' semi-trailer requested – Additional \$650.00 fee

PLEASE NOTE: In the presence of poor weather conditions, CJD has the right to delay or cancel the event if necessary. CJD will then contact the RESIDENTS/BUSINESS to reschedule.

Criteria for RESIDENTS/BUSINESS providing volunteers:

All cars to be unloaded by RESIDENTS/BUSINESS volunteers. CJD Staff will be onsite to accept recycling payments, package, and load material into CJD trucks. All volunteers should be able to:

- Lift 5 to 30 pounds
- Stay the duration of the event or be replaced if needed
- Recycled items being unloaded can be awkwardly shaped (CRT and Projections TVs, etc.) and weigh more than 30 lbs. requiring multiple volunteers to unload.
- Must be able to follow current CDC guidelines at time of event (Page 4).

Incurred Fee Costs:

RESIDENTS/BUSINESS incurs **additional** fees based on items brought to the event. Costs for the most recycled items (but not limited to) are:

- ✓ \$5-\$35 each depending on size for TV for CRT, plasma, projection, flat screen, and console TVs
- ✓ \$5-\$20 each depending on size for LCD, LED, and CRT monitors
- ✓ \$5-\$10 each depending on size for dehumidifiers, mini-fridges, and refrigerators

Cash and check payments will be accepted. Checks are to be made out to CJD E-Cycling.
If you pay with cash, please have exact amount.

The RESIDENTS/BUSINESS will be subject to additional fees for any items accepted from the CJD WILL NOT ACCEPT list (Page 3).

CJD offers multiple ways to reduce E-Drive costs

- 1) The total cost of the drive may include a deduction of up to **\$350.00** in the event RESIDENTS/BUSINESS provides volunteers and/or staff to unload *all vehicles*.
- 2) Contact CJD if you have volunteers, but not enough to unload all cars and large items. You may still qualify for a deduction.
- 3) Total cost of drive will include a deduction of **\$350.00** in the event RESIDENTS/BUSINESS provides a Forklift/equipment capable to load all palletized material.

Are you able to provide forklift/equipment? Yes ☐ No ☐
Will the forklift/equipment operator be available for duration of the drive? Yes ☐ No ☐

For your convenience, CJD staff will assess truck and equipment requirements on the event day and only dispatch the size of the truck needed.

- *Prescription medication, over the counter drugs, or illegal drugs within any equipment*
- *Devices containing mercury*
- *Equipment containing: asbestos, radioactive components, infectious, or pathological wastes*
- *Other hazardous materials (pesticides/oil filters/air bags/lead/mercury switches)*

CJD SAFETY PROTOCOLS

COVID-19 Safety Protocol

In order to assure the health and safety of all, participants shall follow the below required guidelines. Workers may refuse service if participant fails to comply with the below rules.

- **Participants under quarantine or isolation protocol are not allowed to attend the event.**
If you have had COVID-19 in your household, you must be symptom free for at least two weeks before delivering your electronics to a recycling drop-off or event. In addition, do not attend the event if you are experiencing the following symptoms: fever, cough, shortness of breath/difficulty breathing, sore throat, headache, rigors, myalgia, loss of taste, loss of smell, or have been exposed to someone that has tested positive for COVID-19.
- Current CDC guidelines at the time of the event will be followed.
- Please be patient with event staff and volunteers, as the line will be moving a bit slower than normal in order to assure an appropriate spacing between workers.

Item Handling Protocol

- **Materials to be recycled must be in the hatchback area or trunk of the vehicle.**
Items placed in passenger seats or back seats will not be accepted.
- All small loose electronics, cables, cords, remotes, etc. must be bagged and tied closed.
- Exercise caution while handling, loading, and unloading items.

Date: August 19, 2022

RE: **LOCAL GOVERNMENT ONLY Used Tire Collection 2022**

The Illinois Environmental Protection Agency is pleased to sponsor a used tire collection for St. Clair County. This tire collection is for **Governmental Entities ONLY** and is **NOT open to the general public**. No used tires from ULG fleets or from private entities are allowed. Please **DO NOT** advertise this collection to the public.

The collection will be held on **Tuesday September 20, 2022 and Wednesday, September 21, 2022 from 8:00a.m. until 3:00p.m.** on both days.

Illinois Department of Transportation has graciously allowed the use of their property at **8313 Shiloh Valley Township Line Road, Lebanon, Illinois**.

Tires on rims, large truck, and tractor tires MUST be kept separate to facilitate unloading in a different area at the collection site.

Please take the necessary steps to insure that mud and comingled waste materials (i.e. rocks/bricks, lumber, and garbage are removed from each load PRIOR to delivery.

If you have any specific questions, please contact one of us:

A riparian landowner

owns property adjacent to

a lake or stream. The

shoreline of a lake or

stream and the immediate

adjacent area is called a **riparian buffer**. Riparian

landowners are the last defense to protect our

lakes and streams.

Healthy riparian buffers serve many purposes such as protecting water quality, reducing erosion, enhancing wildlife habitat, minimizing impacts of human activities, and providing positive aesthetics.

Riparian landowners enjoy benefits from the lake or stream's natural attributes and are responsible for maintaining the streambanks or lakeshore (and riparian buffer) on your property.

This brochure provides some helpful tips for maintaining a healthy riparian buffer. Riparian buffers should be at least 10 feet of dense native plants to grow along the water's edge and streambank to allow pollutants to filter out and the banks to stabilize.

What is a Watershed?

Area of land and water draining to a particular river, stream, lake or wetland.

LIVING ON THE WATER'S EDGE

Living on the water's edge refers to landowners that live at properties along the shoreline of a lake or stream and the immediate adjacent area; this is also referred to as **RIPARIAN BUFFER**.

STORMWATER MANAGEMENT COMMISSION

Best Management Practices for Properties Adjacent to Streams and Lakes

DON'T DUMP!

Dumping yard waste and other debris in your riparian buffers and streams can cause stream blockages, elevate flood stages, and wash sediment and debris (excessive nutrients) into the water bodies.

- ◆ Never dispose of chemicals in the streams, lakes or riparian buffers.
- ◆ Never dispose of branches, leaves, or clippings in the riparian buffers.
- ◆ Remove fallen trees that block flows

FERTILIZE WISELY

One of the largest problems in Lake County streams and lakes is high amount of nutrients, which produce excessive growth of algae and other undesirable aquatic plants.

- ◆ Test your soil before fertilizing.
- ◆ Don't apply fertilizer before a rain event
- ◆ Be P-free with your fertilizers!
- ◆ Don't apply fertilizers to riparian buffers.

MINIMIZE STORMWATER RUNOFF

Impervious surfaces (roofs and driveways) convey runoff and pollution to our waterways. By minimizing impervious surfaces you can reduce the transport of sediment, chemicals, and other pollutants to waters.

- ◆ Disconnect flow from downspouts & sump pumps from the stream or lake and direct to a rain garden or bioswale

RIPARIAN BUFFER

RIGHT PLANT—RIGHT PLACE!

Deep rooted native plants and trees have long root systems to keep soils in place, absorb runoff, and filter out pollutants. When ground and banks are left bare, soil erodes and washes off into nearby lakes and streams.

- ◆ Remove invasive plants from your yard & riparian buffers
- ◆ Use deep rooted native plants in your landscaping—less water required

Rain Gardens are shallow depressions planted with native plants and are positioned to capture stormwater runoff.

Seven Simple Steps to Clean Water

- 1 Help keep pollution out of storm drains
- 2 Fertilize sparingly and carefully
- 3 Carefully store and dispose of household cleaners, chemicals, and oil
- 4 Clean up after your pet
- 5 Practice good car care
- 6 Choose earth-friendly landscaping
- 7 Save water

Our Water. Our Future. Ours to Protect.

Preventing Polluted Runoff

Everybody's Business

Problems: Runoff from lawns, driveways, and streets

Homeowners can prevent polluted runoff by using fertilizers and pesticides sparingly, maintaining septic systems, and picking up pet waste.

Problems: Sediment, herbicides, pesticides

Farmers can prevent polluted runoff by managing soil and getting fertilizing, pesticides and herbicides off their farms and pastures.

Problems: Sediment, oil, grease, paint, antifreeze, car wash runoff

Developers and citizens can prevent polluted runoff by using low impact development and providing structural BMPs (best management practices).

ST. CLAIR COUNTY'S STORMWATER GUIDE FOR BUSINESSES

Rain washes oil, fertilizer and other pollutants into storm drains...

which flows untreated into lakes and streams.

You can help prevent water pollution by volunteering to apply drain markers to storm drains in your neighborhood.

Also, consider adopting a stream to keep trash out of our creeks.

St. Clair County
Public Meeting Agenda

 - 3. Motion to Approve Payment of Vouchers for the Period of February 2, 2023 through February 15, 2023 totaling \$571,778.98
 - 4. Motion to Approve Statement of Funds for January 31, 2023
- J. Unfinished Business
- K. New Business
 - 1. Motion to Approve Master Services Agreement with Volkert, Inc. and Work Order #1 – Traffic Study Illinois Route 3 and Veteran's Parkway
 - 2. Motion to Approve an Architectural Variance Allowing Pre-Finished Fiber Cement Board Siding in Combination with Required Exterior Wall Materials for a Proposed Restaurant at 977 Eleven South
 - 3. Ordinance No. 3636 Adopting Zoning Text Amendments Establishing Solar Energy System Regulations for the City of Columbia
 - 4. Discussion of Architectural Review for the Four Building Purposed for the Top Quality Holding Development in the Southport Subdivision at 302-314 Southport Drive
 - 5. Discussion of Architectural Review for the Proposed "The Barn" Tavern/Video Gaming Establishment Located at 318 N. Main Street (Accessory structure on former Gillan's Graphics site)
 - 6. Discussion of an Amendment to Brockland Sales Tax Rebate Agreement
- L. Closed Session
 - 1. 5 ILCS 120/2(c)(5) Purchase or Lease of Real Property
 - 2. 5 ILCS 120/2(c)(21) Discussion of Minutes of Meetings Lawfully Closed Under the Act
- M. Announcements
- N. Adjournment

Agenda Item Report

Date of Meeting:

February 21, 2023

Item:

NPDES Permit for Storm Water Discharges from Separate Storm Sewer Systems (MS4)

Agenda Section:

Proclamations/Recognition/Presentations

Background:

The City is considered to be included in the metro east "urbanized area" and is therefore, subject to having to have a NPDES Permit for Storm Water Discharge. Attached is some background information of the NPDES permit and a copy of the City of Columbia's 2020-2021 Annual Facility Report. A requirement of the permit is to have an annual public informational meeting regarding the permit.

Recommendation:

For public input/discussion only.

Item Submitted By:

Chris A. Smith, P.E., City Engineer

Attachments:

NPDES Permit background.

2020-2021 IEPA Annual Facility Inspection Report for NPDES Permit for Storm Water Discharges from MS4 systems.

National Pollutant Discharge Elimination System Permit (NPDES) Background

The Clean Water Act (1972) prohibits anybody from discharging "pollutants" through a "point source" into a "water of the United States" unless they have an NPDES permit. The permit will contain limits on what you can discharge, monitoring and reporting requirements, and other provisions to ensure that the discharge does not hurt water quality or people's health. In essence, the permit translates general requirements of the Clean Water Act into specific provisions tailored to the operations of each person discharging pollutants. The original focus was on industrial wastewater and municipal sewage.

In 1990, Phase 1 of the EPA's storm water program was announced. This program regulated medium to large municipal separate storm sewer system (MS4), generally any municipality over 100,000 people. Phase 1 also regulated some construction and industrial activities. In 1999, Phase II started the second step in combating municipal storm water discharge. Now those municipalities that are located in an "urbanized area" must obtain and follow a MS4 permit. In March of 2003 construction sites that disturb over one acre had to obtain coverage under the NPDES general permit.

In general our NPDES permit must include six minimum control measures. Those control measures are:

1. Public Education and Outreach
2. Public Involvement and Participation
3. Illicit Discharge Detection and Elimination
4. Construction Site Stormwater Runoff Control
5. Post-Construction Stormwater Management, and Pollution Prevention
6. Good Housekeeping for Municipal Operators.

**Minutes of the Regular Meeting of the City Council of the City of Columbia, Illinois
Held Tuesday, February 21, 2023 in the Council Room of City Hall.**

A. Call Meeting to Order

Mayor Hill called the City Council of Columbia, Illinois to order at 7:00 PM.

B. Roll Call

Present: Aldermen Niemietz, Huch, Holtkamp, Martens, Riddle, Garmer, Khoury, and Lawlor.

Absent: None.
Quorum present.

Administrative Staff present:

City Clerk Andrew Hitzemann	Dir. Of Community Dev. Scott Dunakey
City Attorney Terry Bruckert	Dir. of IT James Mitchell
City Administrator Douglas Brimm	Library Director Annette Bland
City Treasurer Linda Sharp	Director of Public Works Mike Sander
City Engineer Chris Smith	

C. Pledge of Allegiance

Those in attendance recited the Pledge of Allegiance.

D. Proclamations/Recognitions/Presentations

1. NPDES Permit for Storm Water Discharges from Separate Storm Sewer Systems (MS4)

City Engineer Chris Smith provided an overview of the NPDES Permit.

E. Public Input

Gerry Siekerka

Mr. Siekerka addressed the Council regarding the waste water treatment plant. He is concerned about the smell and the amount of electricity being used for the plant.

Ron Deedrick

Mr. Deedrick expressed concerns regarding a mailer which was sent to Columbia residents regarding Home Rule.

F. Comments & Announcements - Mayor

Mayor Hill thanked everyone who attended the Home Rule Town Hall.

G. Comments & Announcements - Aldermen

There were no Aldermen Comments & Announcements.

H. Comments & Announcements – Department Directors

There were no Department Directors Comments & Announcements.

I. Consent Agenda

City Clerk Hitzemann read the Consent Agenda.

1. Motion to Approve Minutes of the February 6, 2023 Regular City Council Meeting
2. Motion to Approve Closed Session Minutes of the February 6, 2023 Regular City Council Meeting
3. Motion to Approve Payment of Vouchers for the Period of February 2, 2023 through February 15, 2023 totaling \$571,778.98
4. Motion to Approve Statement of Funds for January 31, 2023

Mayor Hill inquired if the Council wished to remove any items prior to a motion. There were none.

Motion:

It was moved by Alderman Niemietz, and seconded by Alderman Martens, to approve the Consent Agenda as read.

Motion Passed.

Roll Call Vote results:

8 Aye: Niemietz, Huch, Holtkamp, Martens, Riddle, Garmer, Khoury, and Lawlor

0 Nay:

0 Absent:

0 Abstain:

J. Unfinished Business

1. Ordinance No. 3636 Adopting Zoning Text Amendments Establishing Solar Energy System Regulations for the City of Columbia

Director of Community Development Scott Dunakey discussed an increase in requests for information regarding solar energy installations due to the rising cost of electricity. Mr. Dunakey provided the Council with an overview of the proposed amendments. Mr. Dunakey stated the Plan Commission recommended approval of the regulations as submitted.

After discussion, Mr. Brimm recommended the Council table Ordinance No. 3636 to provide more opportunity to address concerns brought forth.

Motion:

It was moved by Alderman Holtkamp, and seconded by Alderman Huch, to Table Ordinance No. 3636 Adopting Zoning Text Amendments Establishing Solar Energy

System Regulations for the City of Columbia until the March 6, 2023 City Council Meeting

Motion Passed.

Roll Call Vote results:

8 Aye: Niemietz, Huch, Holtkamp, Martens, Riddle, Garmer, Khoury, and Lawlor
0 Nay:
0 Absent:
0 Abstain:

2. Motion to Approve an Architectural Variance Allowing Pre-Finished Fiber Cement Board Siding in Combination with Required Exterior Wall Materials for a Proposed Restaurant at 977 Eleven South

Mr. Dunakey stated the applicant at 977 Eleven South is seeking a variance to use pre-finished fiber cement board siding for the proposed restaurant. Mr. Dunakey stated the Plan Commission recommended approval of the request as submitted.

Motion:

It was moved by Alderman Lawlor, and seconded by Alderman Khoury, to pass and approve the Motion to Approve an Architectural Variance Allowing Pre-Finished Fiber Cement Board Siding in Combination with Required Exterior Wall Materials for a Proposed Restaurant at 977 Eleven South

Motion Passed.

Roll Call Vote results:

8 Aye: Niemietz, Huch, Holtkamp, Martens, Riddle, Garmer, Khoury, and Lawlor
0 Nay:
0 Absent:
0 Abstain:

K. New Business

1. Motion to Approve Master Services Agreement with Volkert, Inc. and Work Order #1 – Traffic Study Illinois Route 3 and Veteran’s Parkway

Motion:

It was moved by Alderman Niemietz, and seconded by Alderman Riddle, to pass and approve the Motion to Approve Master Services Agreement with Volkert, Inc. and Work Order #1 – Traffic Study Illinois Route 3 and Veteran’s Parkway

Motion Passed.

Roll Call Vote results:

8 Aye: Niemietz, Huch, Holtkamp, Martens, Riddle, Garmer, Khoury, and Lawlor
0 Nay:
0 Absent:
0 Abstain:

2. Discussion of Architectural Review for the Four Buildings proposed for the Top Quality Holding Development in the Southport Subdivision at 302-314 Southport Drive

Mr. Dunakey explained the applicant is seeking authorization to use either pre-finished fiber cement board siding or pre-finished engineered wood lap siding. The property is in the Commercial Park Zoning District. Mr. Dunakey stated the Plan Commission recommended approval of the request as submitted.

3. Discussion of Architectural Review for the Proposed "The Barn" Tavern/Video Gaming Establishment Located at 318 N. Main Street (Accessory structure on former Gillan's Graphics site)

Mr. Dunakey explained the applicant at 318 North Main Street is seeking authorization to use the SmartSide Diamond Kote product. The building in question is the secondary structure at this location. The applicant wants to convert this structure into a Tavern and Video Gaming Establishment. Mr. Dunakey stated the Plan Commission recommended approval of the request as submitted.

4. Discussion of an Amendment to Brockland Sales Tax Rebate Agreement

Mr. Brimm explained the City was approached by Bob Brockland Buick GMC to discuss the terms of a sales tax rebate approved by the City in 2013. Bob Brockland Buick GMC is requesting the City to remove the 10 year time limit. The rebate is set to expire in 2025.

L. Closed Session

Mayor Hill informed the Council that he would entertain a motion to go into Closed Session pursuant to 5 ILCS 120/2(c)(5) Purchase or Lease of Real Property, 5 ILCS 120/2(c)(11) Pending or Probable Litigation, and 5 ILCS 120/2(c)(21) Discussion of Minutes of Meetings Lawfully Closed Under the Act

Motion:

It was moved by Alderman Niemietz, and seconded by Alderman Holtkamp, to direct the Mayor to go into Closed Session at 8:09 PM pursuant to 5 ILCS 120/2(c)(5) Purchase or Lease of Real Property, 5 ILCS 120/2(c)(11) Pending or Probable Litigation, and 5 ILCS 120/2(c)(21) Discussion of Minutes of Meetings Lawfully Closed Under the Act

Motion Passed.

Roll Call Vote results:

8 Aye: Niemietz, Huch, Holtkamp, Martens, Riddle, Garmer, Khoury, and Lawlor

0 Nay:
0 Absent:
0 Abstain:

Mayor Hill called the Regular Session of the City Council back to order at 8:53 PM. Upon return to Regular Session, Aldermen Niemietz, Huch, Holtkamp, Martens, Riddle, Garmer, Khoury, Lawlor, and Mayor Hill were present.

M. Announcements

Mayor Hill announced road construction on Route 3 will begin on February 27, 2023.

Alderman Holtkamp questioned the Home Rule mailer that was sent out. City Attorney Terry Bruckert stated the City didn't put the mailer out and no public funds were used.

N. Adjournment

Motion:

It was moved by Alderman Niemietz, and seconded by Alderman Huch, to adjourn the Regular City Council meeting held Tuesday, February 21, 2023 at 8:56 PM.

Motion Passed.

Roll Call Vote results:

8 Aye: Niemietz, Huch, Holtkamp, Martens, Riddle, Garmer, Khoury, and Lawlor
0 Nay:
0 Absent:
0 Abstain:

ANDREW HITZEMANN, CITY CLERK

MAYOR BOB HILL

**ST. CLAIR COUNTY
DEPARTMENT OF ROADS & BRIDGES**

Fax: (618) 233-0996

**TRANSPORTATION COMMITTEE
AGENDA**

**Scheduled for Monday January 30, 2023
6:00 PM County Court House
Conference Room B 564**

Meeting called to order with the Pledge of Allegiance

Approval of minutes from the 12-19-2022 meeting

Comments on the Agenda

Comments from the audience

Please state name, address and keep to about 2 minutes.

Informational 1) MS4 update

- Action Items**
- 1) Advise the County Engineer to accept the Guthrie Estates Minor Subdivision contingent upon the approval of the Health Department.**
 - 2) Approve the Roads and Bridges Five Year Capital Improvement Plan**
 - 3) Accept the Contract with the International Association of Machinists and Aerospace workers as approved by the Labor Committee.**
 - 4) Modification to Highway Permit to include 30 ILCS 500/30-22**

Resolutions:

- A) Resolution authorizing i3 Broadband to install conduit for a communication line easterly approximately 5,540 feet along the south side of Thouvenout Lane to 1,380 feet east of the intersection of Hartman Lane.**
- B) Resolution authorizing i3 Broadband to install conduit for a communication line heading north and south along the east side of Hartman Lane approximately 1,980 feet from Thouvenout Lane.**
- C) Resolution approving i3 Broadband to install conduit for a communication line heading north and south along the east side of Old Collinsville Road 2,250 feet from Thouvenout Road**

- D) Resolution authorizing the Village off Swansea to install a bored and encased sanitary sewer force main under Sullivan Drive, County Highway 81.
- E) Resolution authorizing a cost-plus contract with Thouvenout, Wade and Moerchen to design and prepare plans and specifications in the amount of \$71980.00 for the improvements to Lebanon Avenue and Old Collinsville Road Section 22-00276-13-PV to be paid out of the County Rebuild Fund.
- F) Resolution authorizing execution of permits for SCCTD to access the Right of Way on Old IL Rt 158 for construction of the light rail extension subject to approval by the County Engineer.
- G). Resolution authorizing a joint agreement between St. Clair County, IDOT and the City of Belleville for funding the intersection of Frank Scott Parkway and the North Belt Line. To be paid out of matching funds.
- H) Authorize the execution of a joint agreement with SCCTD for the Old Collinsville Road Trail Phase 3.

Engineer's Report

Letting for the intersection of FSP and N Belt West and Waterloo Road Drainage Improvements in March
Flashing light at Scott Troy and O'Fallon Troy replaced
IDOT meeting 1-5-2023
Air Show meeting 1-12-2023
EWG Executive Advisory Meeting 1-17-2023
Pipeline Safety Class 1-17-2023.
IACE meeting with IDOT 1-24-2023
1-31-2023 meeting with Dierbergs about SE corner of Greenmount and FSP
Survey work on 17th Street underway
HVAC at shop replaced
Review Highway Plat for Greenmount Road widening from Lebanon Avenue to IL 161
Closing out 2022 projects as able
End of 2022 material inventory sent to auditor
Review of intersection design study resubmittal for Metrolink Extension

Old Business

New Business

Adjournment

**Norman G. Etling, P.E.
County Engineer**

TRANSPORTATION COMMITTEE
Minutes Monday January 30, 2023
6:00 PM County Court House
Conference Room B 564

Members in Attendance

Marty Crawford Vice Chair
Robert Allen
Harry Hollingsworth
Roy Mosley
Mike O'Donnell
Robert Trentman

Guests

Scott Gruenwald	County Board
Robert Wilhelm	County Board
Randy Pierce	News Media
Norman Etling	County Engineer

Members Absent

Rick Vernier

The Vice Chairman served as Chairman and called the meeting to order with the Pledge of Allegiance at 6:00 PM

Mr. Allen made a motion seconded by Mr. O'Donnell to approve the minutes of the 12-19-2022 meeting. All members present voted aye.

The Chairman asked if there were any comments on the Agenda. None were presented.

The Chairman asked if there were any comments from the audience. None were presented

Informational 1) MS4 update. The Engineer gave a brief description of the program and reporting status. A call for questions or comments was initiated. None were received.

Action Items 1) Advise the County Engineer to accept the Guthrie Estates Minor Subdivision contingent upon the approval of the Health Department. Mr. Allen made a motion seconded by Mr. O' Donnell to approve. All members present voted aye.
2) Approve the Roads and Bridges Five Year Capital Improvement Plan. Mr. Mosley made a motion seconded by Mr. Allen to approve. All members present voted aye.
3) Accept the Contract with the International Association of Machinists and Aerospace workers as approved by the Labor Committee. Mr. Mosley made a motion seconded by Mr. Allen to approve. All members present voted aye.
4) Modification to Highway Permit to include 30 ILCS 500/30-22. Mr. Trentman made a motion seconded by Mr. O'Donnell to approve. All members present voted aye.

Resolutions:

- A) Resolution authorizing i3 Broadband to install conduit for a communication line easterly approximately 5,540 feet along the south side of Thouvenout Lane to 1,380 feet east of the intersection of Hartman Lane. Mr. Allen made a motion seconded by Mr. Trentman to approve. All members present voted aye
- B) Resolution authorizing i3 Broadband to install conduit for a communication line heading north and south along the east side of Hartman Lane approximately 1,980 feet from Thouvenout Lane. Mr. Allen made a motion seconded by Mr. O'Donnell to approve. All members present voted aye.
- C) Resolution approving i3 Broadband to install conduit for a communication line heading north and south along the east side of Old Collinsville Road 2,250 feet from Thouvenout Road. Mr. O'Donnell made a motion seconded by Mr. Allen to approve. All members present voted aye.
- D) Resolution authorizing the Village of Swansea to install a bored and encased sanitary sewer force main under Sullivan Drive, County Highway 81. Mr. Allen made a motion seconded by Mr. Hollingsworth to approve. All members present voted aye.
- E) Resolution authorizing a cost-plus contract with Thouvenout, Wade and Moerchen to design and prepare plans and specifications in the amount of \$71980.00 for the improvements to Lebanon Avenue and Old Collinsville Road Section 22-00276-13-PV to be paid out of the County Rebuild Fund. Mr. Mosley made a motion seconded by Mr. Allen to approve. All members present voted aye.
- F) Resolution authorizing execution of permits for SCCTD to access the Right of Way on Old IL Rt 158 for construction of the light rail extension subject to approval by the County Engineer. Mr. Allen made a motion seconded by Mr. O'Donnell to approve. All members present voted aye.
- G). Resolution authorizing a joint agreement between St. Clair County, IDOT and the City of Belleville for funding the intersection of Frank Scott Parkway and the North Belt Line. To be paid out of matching funds. Mr. O'Donnell made a motion seconded by Mr. Mosley to approve. All members present voted aye.
- H) Authorize the execution of a joint agreement with SCCTD for the Old Collinsville Road Trail Phase 3. Mr. Allen made a motion seconded by Mr. Mosley to approve. All members present voted aye.

Engineer's Report

Letting for the intersection of FSP and N Belt West and Waterloo Road Drainage Improvements in March

Flashing light at Scott Troy and O'Fallon Troy replaced

IDOT meeting 1-5-2023

Air Show meeting 1-12-2023

EWG Executive Advisory Meeting 1-17-2023

Pipeline Safety Class 1-17-2023.

IACE meeting with IDOT 1-24-2023

1-31-2023 meeting with Dierbergs about SE corner of Greenmount and FSP

Survey work on 17th Street underway

HVAC at shop replaced

Review Highway Plat for Greenmount Road widening from Lebanon Avenue to IL 161

Closing out 2022 projects as able

End of 2022 material inventory sent to auditor

Review of intersection design study resubmittal for Metrolink Extension

The engineer advised a report on the CK&L of I Lake was sent to the States Attorney for review and Comment.

The Chairman asked if there was any Old Business. None was presented.

The Chairman asked if there was any New Business. Mr. Trentman asked the engineer to look at the stop sign at IL 158 and FSP.

Mr. Mosley asked the engineer to review current management pay structure considering the new union contract.

Mr. Allen made a motion seconded by Mr. O'Donnell to adjourn. All members in attendance voted aye.

The Chairman adjourned the meeting at 6:31 PM

BMP Training

Best Management Practices for Good Housekeeping

Follow these BMPs to control pollutant discharges. The objectives are: 1) to keep pollutants from contacting rain, and 2) to keep pollutants from being dumped or poured into the storm drains. The goal is "only rain in the storm drain."

Activities

Best Management Practices

- | | |
|----------------------------|---|
| Pavement Cleaning | <ul style="list-style-type: none">• Sweep parking lots and other paved areas periodically to remove debris. Dispose of debris in the garbage.• If outdoor pavement cleaning with detergent is required, collect wash water and dispose in indoor sinks or drains for discharge to the sanitary sewer. Contact your local wastewater treatment agency. |
| Litter Control | <ul style="list-style-type: none">• Provide an adequate number of trash receptacles for your customers and employees. This helps keep trash from overflowing the receptacles.• Pick up litter and other wastes daily from outside areas including storm drain inlet grates. |
| Waste Disposal* | <ul style="list-style-type: none">• Inspect dumpsters and other waste containers periodically. Repair or replace leaky dumpsters and containers.• Cover dumpsters and other waste containers.• Never dispose of waste products in storm drain inlets.• Recycle wastes or dispose properly. |
| Materials Storage* | <ul style="list-style-type: none">• Store materials such as grease, paints, detergents, metals, and raw materials in appropriate, labeled containers.• Make sure all outdoor storage containers have lids, and that the lids are adequately closed.• Store stockpiled materials inside a building, under a roof, or covered with a tarp to prevent contact with rain. |
| Training | <ul style="list-style-type: none">• Train employees regularly on good housekeeping practices.• Assign a person to be responsible for effective implementation of BMPs. |
| Equipment/Vehicle Cleaning | <ul style="list-style-type: none">• Maintain equipment and vehicles regularly. Check for and fix leaks.• Use drip pans to collect leaks or spills during maintenance activities.• Wash equipment/vehicles in a designated and/or covered area where the wash water is collected to be recycled or discharged to the sanitary sewer. Contact your local wastewater treatment agency. |

Some Facilities will require structural control BMPs if simpler operation ones are not adequate for keeping pollutant discharges from the storm drains.

* Hazardous materials must comply with hazardous materials storage and disposal requirements.

COUNTY

ST. CLAIR
COUNTY

HELP YOUR WATERSHED!

STORMWATER MANAGEMENT

Everyone lives in a watershed, and it takes a community to maintain and protect it!

St. Clair County is looking for input on water quality concerns or issues in your watershed. If you have any information, please provide it online at:

co.st-clair.il.us/stormwater/concerns

However, no matter where you live in a watershed, you contribute to the health of local streams and rivers.

If you don't have information to contribute, you can still help improve the health of your watershed by following the guidance in this brochure!

WHAT ARE BEST MANAGEMENT PRACTICES?

Stormwater best management practices (BMPs) are techniques, measures or structural controls used to manage the quantity and improve the quality of stormwater runoff. The goal of BMPs is to mimic the natural way water moved through an area before development by using design techniques to infiltrate, evaporate, and reuse runoff close to its source. BMPs help reduce the amount of and improve the quality of stormwater runoff. Please preserve our streams by utilizing these BMPs.

QUICK FIXES

Rain barrels are an easy and inexpensive way to capture and store runoff falling from gutters. The stored water can later be used to water gardens and lawns. You can make your own barrels or purchase them locally with simple installation. Another easy fix is adding a rain garden to your property. This attractive BMP is effective in reducing the amount of runoff leaving your property. Rain gardens utilize native plants with deep roots to absorb runoff, filter pollutants and promote groundwater recharge. Even simple changes in habit can be a BMP. For example, using phosphate-free products when washing your car or fertilizing your lawn go a long way in reducing pollutants in stormwater runoff. Something as small as cleaning up after your pet and ensuring litter is properly disposed of can also help.

CONSTRUCTION SOLUTIONS

Some BMPs require more involvement, but should be considered when building or renovating homes. For example, green roofs are an excellent way to decrease the amount of runoff leaving your property. Green roofs not only utilize water where it falls, but help prevent urban heat islands. Green roofs are a more expensive upgrade to your property, but they save money on heating and cooling costs. They can also be constructed on flat and sloped surfaces. A permeable paver is another BMP used as an alternative to traditional concrete or asphalt paving. The pavers decrease runoff by allowing water to seep into cracks that are filled with an aggregate. Remember, anything you can do to reduce pollutants in St. Clair County streams helps everyone!

REMEMBER...

- Use permeable pavers instead of asphalt or concrete.
- Plant rain gardens using native species.
- Mix composts into lawns and gardens to use for fertilizer.
- Install rain barrels and use it to water your plants and lawn.
- Don't use your hose as a broom.
- Build green vegetated roofs.
- Keep your vehicle regularly maintained and free of leakage.
- Use phosphate-free products outdoors.
- Put litter in its place.
- Use alternative deicing methods on your driveway in the winter.
- Clean up animal waste.
- Properly dispose of grass clippings and leaves.
- Wash your car on the lawn.
- Report illicit discharge into sewers and streams.

Post Construction Management Training

Stormwater Phase II Final Rule

Post-Construction Runoff Control Minimum Control Measure

Stormwater Phase II Final Rule Fact Sheet Series

Construction Program

3.0 – Construction Program Overview

3.1 – Construction Rainfall Erosivity Waiver

Industrial "No Exposure"

4.0 – Conditional No Exposure Exclusion for Industrial Activity

This fact sheet profiles the Post-Construction Runoff Control minimum control measure, one of six measures that the operator of a Phase II regulated small municipal separate storm sewer system (MS4) is required to include in its stormwater management program in order to meet the conditions of its National Pollutant Discharge Elimination System (NPDES) permit. This fact sheet outlines the Phase II Final Rule requirements for post-construction runoff control and offers some general guidance on how to satisfy those requirements. It is important to keep in mind that the small MS4 operator has a great deal of flexibility in choosing exactly how to satisfy the minimum control measure requirements.

Why Is The Control of Post-Construction Runoff Necessary?

Post-construction stormwater management in areas undergoing new development or redevelopment is necessary because runoff from these areas has been shown to significantly affect receiving waterbodies. Many studies indicate that prior planning and design for the minimization of pollutants in post-construction stormwater discharges is the most cost-effective approach to stormwater quality management.

There are generally two forms of substantial impacts of post-construction runoff. The first is caused by an increase in the type and quantity of pollutants in stormwater runoff. As runoff flows over areas altered by development, it picks up harmful sediment and chemicals such as oil and grease, pesticides, heavy metals, and nutrients (e.g., nitrogen and phosphorus). These pollutants often become suspended in runoff and are carried to receiving waters, such as lakes, ponds, and streams. Once deposited, these pollutants can enter the food chain through small aquatic life, eventually entering the tissues of fish and humans. The second kind of post-construction runoff impact occurs by increasing the quantity of water delivered to the waterbody during storms. Increased impervious surfaces (e.g., parking lots, driveways, and rooftops) interrupt the natural cycle of gradual percolation of water through vegetation and soil. Instead, water is collected from surfaces such as asphalt and concrete and routed to drainage systems where large volumes of runoff quickly flow to the nearest receiving water. The effects of this process include streambank scouring and downstream flooding, which often lead to a loss of aquatic life and damage to property.

What Is Required?

The Phase II Final Rule requires an operator of a regulated small MS4 to develop, implement, and enforce a program to reduce pollutants in post-construction runoff to their MS4 from new development and redevelopment projects that result in the land disturbance of greater than or equal to 1 acre. The small MS4 operator is required to:

- ☐ Develop and implement strategies which include a combination of structural and/or non-structural best management practices (BMPs);
- ☐ Have an ordinance or other regulatory mechanism requiring the implementation of post-construction runoff controls to the extent allowable under State, Tribal or local law;

- ☐ Ensure adequate long-term operation and maintenance of controls;
- ☐ Determine the appropriate best management practices and measurable goals for this minimum control measure.

What Is Considered a “Redevelopment” Project?

The Phase II Final Rule applies to “redevelopment” projects that alter the “footprint” of an existing site or building in such a way that there is a disturbance of equal to or greater than 1 acre of land. Redevelopment projects do not include such activities as exterior remodeling. Because redevelopment projects may have site constraints not found on new development sites, the Phase II Final Rule provides flexibility for implementing post-construction controls on redevelopment sites that consider these constraints.

What Are Some Guidelines for Developing and Implementing This Measure?

This section includes some non-structural and structural BMPs that could be used to satisfy the requirements of the post-construction runoff control minimum measure. It is important to recognize that many BMPs are climate-specific, and not all BMPs are appropriate in every geographic area. Because the requirements of this measure are closely tied to the requirements of the construction site runoff control minimum measure (see Fact Sheet 2.6), EPA recommends that small MS4 operators develop and implement these two measures in tandem.

☐ Non-Structural BMPs

- **Planning Procedures.** Runoff problems can be addressed efficiently with sound planning procedures. Local master plans, comprehensive plans, and zoning ordinances can promote improved water quality in many ways, such as guiding the growth of a community away from sensitive areas to areas that can support it without compromising water quality.
- **Site-Based BMPs.** These BMPs can include buffer strip and riparian zone preservation, minimization of disturbance and imperviousness, and maximization of open space.

☐ Structural BMPs

- **Stormwater Retention/Detention BMPs.** Retention or detention BMPs control stormwater by gathering runoff in wet ponds, dry basins, or multichamber catch basins and slowly releasing it to receiving waters or drainage systems. These practices can be designed to both control stormwater volume and settle out particulates for pollutant removal.

- **Infiltration BMPs.** Infiltration BMPs are designed to facilitate the percolation of runoff through the soil to ground water, and, thereby, result in reduced stormwater runoff quantity and reduced mobilization of pollutants. Examples include infiltration basins/trenches, dry wells, and porous pavement.
- **Vegetative BMPs.** Vegetative BMPs are landscaping features that, with optimal design and good soil conditions, remove pollutants, and facilitate percolation of runoff, thereby maintaining natural site hydrology, promoting healthier habitats, and increasing aesthetic appeal. Examples include grassy swales, filter strips, artificial wetlands, and rain gardens.

What Are Appropriate Measurable Goals?

Measurable goals, which are required for each minimum control measure, are intended to gauge permit compliance and program effectiveness. The measurable goals, as well as the BMPs, should reflect needs and characteristics of the operator and the area served by its small MS4. Furthermore, the measurable goals should be chosen using an integrated approach that fully addresses the requirements and intent of the minimum control measure.

EPA has developed a Measurable Goals Guidance for Phase II MS4s that is designed to help program managers comply with the requirement to develop measurable goals. The guidance presents an approach for MS4 operators to develop measurable goals as part of their stormwater management plan. For example, an MS4 program goal might be to reduce by 30 percent the road surface areas directly connected to storm sewer systems (using traditional curb and gutter infrastructure) in new developments and redevelopment areas over the course of the first permit term. Using “softer” stormwater conveyance approaches, such as grassy swales, will increase infiltration and decrease the volume and velocity of runoff leaving development sites. Progress toward the goal could be measured by tracking the linear feet of curb and gutter not installed in development projects that historically would have been used.

Date of Inspection	Insert Date	Start/End Time	Insert Start/End Times
Inspector's Name(s)	Insert Names		
Inspector's Title(s)	Insert Titles		
Inspector's Contact Information	Insert Contact Info		
Inspector's Qualifications	Insert Qualifications		

Weather Information
Weather at time of this inspection: ☐ Clear ☐ Cloudy ☐ Rain ☐ Sleet ☐ Fog ☐ Snow ☐ High Winds ☐ Other: _____ Temperature: _____
Have any previously unidentified discharges of pollutants occurred since the last inspection? ☐ Yes ☐ No If yes, describe: _____
Are there any discharges occurring at the time of inspection? ☐ Yes ☐ No If yes, describe: _____

Control Measures				
Number the structural stormwater control measures identified in your SWPPP on your site map and list them below (add as many control measures as are implemented on-site). Carry a copy of the numbered site map with you during your inspections. This list will ensure that you are inspecting all required control measures at your facility. - Identify if maintenance or corrective action is needed. - If maintenance is needed, fill out section B of this template - If corrective action is needed, fill out section G of this template				
	Structural Control Measure	Control Measure is Operating Effectively?	If No, In Need of Maintenance, Repair, or Replacement?	Maintenance or Corrective Action Needed and Notes
1	Cover on all waste/recycle containers	☐ Yes ☐ No	☐ Maintenance ☐ Repair ☐ Replacement	N/A
2	Yard Spill Kits	☐ Yes ☐ No	☐ Maintenance ☐ Repair ☐ Replacement	N/A
3	Fueling Drip Protection Drain Guards Spill Cleanup Materials	☐ Yes ☐ No	☐ Maintenance ☐ Repair ☐ Replacement	N/A
4	Curbing	☐ Yes ☐ No	☐ Maintenance ☐ Repair ☐ Replacement	N/A
5	Stormwater drain grate covers	☐ Yes ☐ No	☐ Maintenance ☐ Repair ☐ Replacement	N/A
6	Established Vegetation	☐ Yes ☐ No	☐ Maintenance ☐ Repair ☐ Replacement	N/A

9	Insert Control Measure Name	☐ Yes ☐ No	☐ Maintenance ☐ Repair ☐ Replacement	Describe Maintenance and/or Corrective Actions Needed
10	Insert Control Measure Name	☐ Yes ☐ No	☐ Maintenance ☐ Repair ☐ Replacement	Describe Maintenance and/or Corrective Actions Needed

Areas of Industrial Materials or Activities Exposed to Stormwater

Below are some general areas that should be assessed during routine inspections:

- Customize this list as needed for the specific types of industrial materials or activities at your facility that are potential pollutant sources.
- Identify if maintenance or corrective action is needed.
- If maintenance is needed, fill out section B of this template. If corrective action is needed, fill out section G of this template.

	Area/Activity	Inspected?	Controls Adequate (appropriate, effective and operating)?	Maintenance or Corrective Action Needed and Notes
1	Material loading/unloading and storage areas	☐ Yes ☐ No ☐ N/A	☐ Yes ☐ No	Describe Maintenance and/or Corrective Actions Needed
2	Equipment operations and maintenance areas	☐ Yes ☐ No ☐ N/A	☐ Yes ☐ No	Describe Maintenance and/or Corrective Actions Needed
3	Fueling areas	☐ Yes ☐ No ☐ N/A	☐ Yes ☐ No	Describe Maintenance and/or Corrective Actions Needed
4	Outdoor vehicle and equipment washing areas	☐ Yes ☐ No ☐ N/A	☐ Yes ☐ No	Describe Maintenance and/or Corrective Actions Needed

9	Dust generation and vehicle tracking	☐ Yes ☐ No ☐ N/A	☐ Yes ☐ No	N/A
10	Processing areas	☐ Yes ☐ No ☐ N/A	☐ Yes ☐ No	N/A
11	Areas where industrial activity has taken place in the past and significant materials remain and are exposed to storm water	☐ Yes ☐ No ☐ N/A	☐ Yes ☐ No	N/A
12	Immediate access roads and rail lines used or traveled by carriers of raw materials, manufactured products, waste material, or by-products used or created by the facility	☐ Yes ☐ No ☐ N/A	☐ Yes ☐ No	N/A
13	(Other)	☐ Yes ☐ No ☐ N/A	☐ Yes ☐ No	N/A
14	(Other)	☐ Yes ☐ No ☐ N/A	☐ Yes ☐ No	N/A

Discharge Points

At discharge points, describe any evidence of, or the potential for, pollutants entering the drainage system. Also describe observations regarding the physical condition of and around all outfalls, including any flow dissipation devices, and evidence of pollutants in discharges and/or the receiving water. Identify if any corrective action is needed.

Non-Compliance

Stormwater Routine Inspection Form

Describe any incidents of non-compliance observed and not described above:

--

Additional Control Measures

Describe any additional control measures needed to comply with the permit requirements:

--

Notes

Use this space for any additional notes or observations from the inspection:

--

Certification Statement (Refer to permit for Signatory Requirements)

Quarterly Visual Inspection Field Sheets

Quarterly Visual Inspection - Field Sheet

St. Clair County MS4 Co-permittee Group

This form is for your own use and should be kept as part of your MS4 documentation. It **does not** have to be submitted to the IEPA unless requested. Use one form per outfall.

This inspection should be performed when sufficient runoff occurs during daylight hours. Try to make observations within the first 30 minutes after runoff begins discharging from the outfall, or as soon as practical. At a minimum test should be taken within 48-hours of a rainfall event greater than or equal to 0.25" in a 24-hour period. If you find visible pollution, note the probable source and list any possible Best Management Practices that could be used to reduce or eliminate the problem.

Comments:					

This outfall could not be evaluated during this quarter due to the following reason:

Quarterly Visual Inspection - Field Sheet

St. Clair County MS4 Co-permittee Group

This form is for your own use and should be kept as part of your MS4 documentation. It **does not** have to be submitted to the IEPA unless requested. Use one form per outfall.

This inspection should be performed when sufficient runoff occurs during daylight hours. Try to make observations within the first 30 minutes after runoff begins discharging from the outfall, or as soon as practical. At a minimum test should be taken within 48-hours of a rainfall event greater than or equal to 0.25" in a 24-hour period. If you find visible pollution, note the probable source and list any possible Best Management Practices that could be used to reduce or eliminate the problem.

AGENDA

WATER RESOURCES ADVISORY COMMITTEE

Tuesday, February 28, 2023
10:30 AM – 12:00 PM
East-West Gateway Board Room and Virtual

The East-West Gateway Offices are now open to the public. You are welcome to attend this meeting in person or virtually on the GoToMeeting platform.

You can listen, talk, and/or view the meeting via:

Computer - <https://meet.goto.com/946261181>

Access code: 946-261-181

Or Phone - +1 (312) 757-3121

1. **CALL TO ORDER** - Carol Lawrence, Chair, East-West Gateway Council of Governments
2. **DISCUSSION ITEMS**
 - A. **Frontenac's Timber Trail to Briar Ridge Streambank Restoration Project**
 - Len Maladon, EDM Inc.
 - Jeff Wappelhorst, City of Frontenac
 - B. **Municipal Stormwater Management Planning Efforts**
 - Eric Karch, Rietz & Jens
 - Josiah Holst, HR Green
 - C. **Caulks Creek Watershed Study in Wildwood**
 - Paul Rydlund, Central Midwest Water Census - USGS
